

RICHA SINGHAL

Senior Frontend Engineer | Angular | TypeScript | RxJS | NgRx | Frontend Architecture

+91-8882163621 | singhalricha40@gmail.com | Greater Noida, India

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 10 years of experience building scalable enterprise web applications using Angular 22+, TypeScript, JavaScript, RxJS and NgRx. Strong experience in frontend architecture, reusable component design, state management, dashboard development, API integration and performance optimization. Led frontend teams, conducted code reviews, collaborated across requirements, development and QA, and delivered applications across Oil & Gas, E-Commerce, FinTech, ERP and Banking domains.

TECHNICAL SKILLS

Frontend: Angular 22+, TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, Bootstrap, RESTful APIs, Angular Material

State Management: NgRx, RxJS, Signals, Reactive Forms

Architecture: Component Design, Reusable Components, Lazy Loading, Route Guards, Standalone Components, Performance Optimization, Dependency Injection, Http Interceptors, Route Guards

Testing: Jasmine, Karma, Unit Testing

Tools & Practices: Git, GitLab, GitHub, Jira, VS Code, Agile, Scrum, CI/CD, Code Reviews, Angular CLI

AI-Assisted Development: Cursor, Claude

Leadership: Team Leadership, Mentoring, Stakeholder Communication, Solution Design

PROFESSIONAL EXPERIENCE

Rsystems International Ltd. | Senior Software Engineer | Aug 2022 – Feb 2026

Product: Moblize | Team Size: 12 | Angular 16–19, NgRx, RxJS, Highcharts, TypeScript, JavaScript

- Built enterprise Angular dashboards for real-time oil & gas well operations analytics and visualization.
- Developed interactive Highcharts visualizations for drilling metrics including wellbore trajectory, hole depth, BHA configuration, azimuth, inclination and measured depth.
- Implemented real-time drilling parameter visualizations covering WOB, ROP, RPM, mud flow rate and torque.
- Implemented NgRx store architecture for complex, deeply nested well data across multiple dashboard views, avoiding redundant API calls.
- Designed reusable Angular components for well cards, KPI tiles and chart wrappers to provide consistent UI across well statistics pages.
- Developed well lifecycle tracking and BHA breakdown views covering operational milestones and drill-string components.

Eshopbox Ecommerce Pvt. Ltd. | Front-End Developer & Team Lead | May 2021 – Jul 2022

Product: Shipping Engine – Orders Module | Team Size: 5 | Angular 9, NgRx, RxJS, TypeScript, JavaScript

- Led a team of 5 frontend engineers, conducted code reviews and ensured delivery standards.
- Architected and implemented NgRx-based centralized state management for a comprehensive order-tracking platform.
- Built analytics dashboards and real-time data visualizations for sales performance, channel revenue and operational KPIs.
- Designed reusable UI components and contributed across requirements analysis, UI design, implementation and QA.
- Developed order listing, shipment timeline, returns and cancellation workflows for the end-to-end customer order lifecycle.

Policybazaar | Full-Stack Developer | Aug 2018 – Dec 2020

Angular 6/7, TypeScript, HTML, CSS, C#, Web API, SQL Server

- Built enterprise applications for revenue management, purchase orders, cost invoicing and vendor workflows.
- Implemented role-based access control, approval workflows, dashboards and large-data upload/download capabilities.
- Built Excel read/write and bulk-import functionality, integrated third-party GST validation APIs and implemented dynamic PDF generation.
- Developed applications from scratch, including frontend architecture, database design, API integration and SQL query/stored-procedure work.
- Participated across requirements analysis, UI design, development, testing and full SDLC delivery.

EARLIER EXPERIENCE

- Iris Software Pvt. Ltd. | Developer | Jul 2016 – Jul 2018 — Developed Angular/AngularJS enterprise applications across municipal bonds, lending, document sharing and HRMS domains.
- Built responsive Angular UI screens, dashboards, reactive forms and API integrations; wrote unit tests and participated in requirements, design, development, testing and code reviews.
- Technologies: Angular 2/4, AngularJS, TypeScript, C#, .NET, Web API, SQL Server, Oracle.

EDUCATION

B.Tech, Northern India Engineering College (GGSIU, New Delhi) | 83% | 2016
